JOHN DWIGHT & CO'S
SODA SALÆRATUS
MAY be found at the Sugar Warehouse of Goodrich & Hunter, No. 42 East water-st.
The attention of the public is called to this article as being superior to Pearlash Saleratus in its effect—giving cookery a more delicate appearance and flavor; and also as more wholesome—Soda being more congenial to the human system than Potash. It is more economical than Pearlash Saleratus—a less quantity being required to produce the same effect. The article is put up in pound papers with full directions for use.
Also may be found, John Dwight & Co's
Washing & Cleansing Powders,
which will be found, on trial, a very superior article, saving much labor of washing Clothes, &c. It will soften hard water. To Engineers and Machinists it is invaluable for removing grease from Machinery and other iron works leaving the iron perfectly dry, and not liable to rust.
Directions for use are printed on each package.

THE "MAI FEST"

We heartily congratulate our citizens, native and adopted, upon the entire success which yesterday attended the introduction of the "Mai Fest" in Milwaukee. The weather was most propitious; a fine breeze from the Lake tempering the rays of the bright sun. At an early hour of the morning those who had tents or booths about the grounds, were busy in fitting them up and making tempting show of their stores; while the Committee of Arrangements were actively occupied in getting their preparations completed and ready for the rush of people expected in the afternoon. Shortly after 10 o'clock the Cricket Club mustered in force on their grounds and commenced play, which was diligently kept up till nightfall and attracted crowds of spectators.

Soon after mid-day the people began to flock towards the Festival grounds, and by 2 P. M. there was one continuous procession of vehicles and pedestrians, ascending Spring st. Hill to the grove in which the exercises were held. They were opened by an appropriate and eloquent speech in German from Mr. KRUEG, editor of the *Banner*, and by a most happily conceived and well-delivered address, in English, by Mr. E. G. RYAN. The speaking was followed by capital music from the German Bands and by some fine choruses by members of the Musical Society.

By this time the Grove was crowded with people, quite *ten thousand* being upon the ground at one time, and all apparently delighted with the Festival and disposed to congratulate each other upon so auspicious an opening of the "Mai Fest." Meanwhile all sorts of sportswere going on within the grounds; while in the different sheds joyous parties were partaking of the bountiful refreshments provided for the occasion, or making merry with song and dance. These various pastimes were continued through the afternoon, while the singing and dancing was kept up far into the night.

It was a pleasure to see with how much spirit our German fellow-citizens entered into the celebration, and with what hearty good-will those not of German birth participated in the festivities. It was an additional pleasure to note the genial brotherly feeling which pervaded all classes and disposed one and all to bid "all hail the May!" Nothing occurred, throughout the day, to mar the general enjoyment, or make any one regret the introduction of the "Mai Fest" in our midst. It is no longer a foreign custom, but fairly adopted and acclimated in Wisconsin, and destined, we trust, to be generally and joyfully welcomed by our citizens on each recurring Anniversary.

Fourth of July.

At a large meeting of the citizens held yesterday afternoon on the Festival Ground, at which Mayor CROCKER presided,the following resolutions were passed, showing the determination of the people to celebrate the National Anniversary, and to organize early, so that everything may be in readiness:

Resolved, That it is expedient to celebrate the approaching anniversary of American Independence in a becoming manner.

Resolved, That for this purpose, D. A. J. UPHAM, RUFUS KING, JOHN WHITE, BYRON KILBOURN, HERRMAN HAERTEL, and FRANCIS J. JUNG are appointed a committee to appoint all necessary sub-committees, and to make such arrangements as they may deem necessary and proper.

Disgraceful.

R. G. Scott, of Richmond, Va., last week addressed a letter to several of the prominent democratic candidates for the Presidency, requesting to know their opinions as regards the compromise measures, and if elected whether they would veto any bill passed by Congress repealing or impairing the working of the Fugitive Slave Law.

We have the answers of Houston, Rusk, Cass, Douglass, King and Dickinson, decisive in favor of maintaining the law, even if in doing so it shall become necessary to exercise the veto power.

The above has recently made its appearance among the telegraph items in our eastern exchanges, and, as no denial is made, doubtless represents the truth. It presents a most disgraceful spectacle. Messrs. Cass, Douglas, and Dickinson, three Northern men, representing freemen, and honored with the support and confidence of freemen, bargaining away their souls for votes at the National Convention!

Railroad Progress.

Clst's Advertiser gives some interesting items concerning the improvement in railroad speed.—1812, it was contended that the thing would not work, because the wheels would turn around on the rail, and not "*bite*."

In 1825, when friends of railroads talked about eventually obtaining a speed of 20 miles to the hour, it was said that "nothing could do more harm towards their general adoption and improvement than the promulgation of such nonsense."

When the Liverpool and Manchester railway bill was introduced, Mr. Stephenson was examined on its merits before a committee of the House of Commons, and the promoters of that project gravely warned him that if he talked of a locomotive going at a greater rate than 10 miles an hour, he would "put a cross on the concern." Even that rate of speed was considered so out of the way, that one person asked if Mr. Stephenson was a foreigner, and another hinted doubts of his sanity This was in 1823.

"The Liverpool and Manchester railway was opened, and a speed of thirty miles an hour was obtained, which rather settled the question of Mr. Stephenson's sanity. This was in 1830."

Now the trains run every day, in this Country and in England at the rate of 40 to 65 miles per hour.

THE REYNOLDS AND MCNEIL CLAIMS.—The Green Bay *Spectator* of last week, noticing the proceedings of the Board of Public Works, has the following item in regard to the two claims allowed by the last Legislature:—

We also learned that the Board declined to issue certificates to Reynolds and McNeal for $17,000 —being the amount allowed them by the Legislature, on the ground that the claims were illegal or that, after rejection by the Board they should have gone to the Courts. If this is the fact it will go far towards putting a stop to the system of getting claims allowed be the Legislature *which properly belong to Courts of Justice.*

We are rather surprized that our Green Bay contemporary takes the "nullification" of the Board of Public Works so coolly. If it was proper for the Board to refer Messrs. REYNOLDS and MCNEAL to the Courts,for a matter of $17,000, how much more proper was it for the Governor to make the like disposition of Mr. MARTIN'S claim, involving several hundred thousand dollars.

THE EFFIGY BURNING.—We are glad to see that our contemporaries at Green Bay begin to think and speak of the recent burning in effigy of Governor FAIRWELL in that town, very much as the outrage is thought of and spoken of elsewhere. Green Bay *Advocate* thus indignantly "—The it was *not* the act of the people" protests that their sentiments?" —, nor "expressed

It is a fact that the form of "— a bundle of rags fashioned into the — man and denominated the Governor, —ng, burned, and otherwise tortured in the streets of Green Bay; but that it was an act of the people of this place, or expressed their sentiments, to any extent, is false, and it is an argument of most consummate weakness to be thrown back upon us.

If we remember rightly, the "argument" (weak enough to be sure) that this act expressed the sentiments of the People of Green Bay,came from those who affect special zeal for the Fox River Improvement, and who set down all that wont swear by Mr. MARTIN'S bill, as "enemies" to the work.

LITTLE RHODY.—The heaviest appropriation during the late session of the Rhode Island Legislature, was $400 for payment of his Excellency, and $200 for Hon. Wm. Beach Lawrence, for their services as Governor and Lieutenant Governor for the past year.

Cricket Club.

We are requested to remind the Members of the Milwaukee Union Cricket Club that there will be a regular meeting at JOHN HANSEN'S, corner of East Water and Huron-sts, *this* evening at 8 o'clock, to choose the players and make the other necessary arrangements for the Match to be played on Friday next with the Lisbon Club. A full and punctual attendance is requested.

BETTER TIMES COMING.—We hear favorable reports of the growing crops, improving business and increasing immigration from all parts of our State. There is good reason to believe that the current year will be a highly prosperous one for Wisconsin. The last Janesville *Gazette*, after alluding to the "hard times" and unwise legislation of the past two or three years, refers thus encouragingly to the future:

Happily a better time is now dawning upon us. The unconquerable perseverance of our people, the increase of capital, and the tide of emigration now setting towards our state have contributed to bring about this desirable result. Our new bank law, which, tho' not perfect in its provisions and not yet in active operation, is as good as any state can boast of, and begins already to have a beneficial effect. Our internal improvements will do more and more as each rail is embedded and each plank laid down, to advance the prosperity of the state. They are already affecting the price of real estate. A great number of locations in the vicinity of our village have been taken the present spring, at advanced rates and the tendency of property is upward. Courage, friends, laborers, property holders of Wisconsin; the "good times" is at hand

HEAVY BUSINESS.—Dr. Hayne, the notorious bigamist, who was recently tried in Kentucky, accomplished a very heavy business in the space of the last 3 weeks of his public life. He ran off from New Orleans on the 19th of February last, arrived at Cincinnati on the 10th of March, married Mrs. Howe on the 18th, left her on the 19th, and after visiting St. Louis, Nashville, and other places,arrived at Paducah on the 3d of April, courted and engaged himself on the 4th and 5th, was married on the 11th, left her on the 4th, was arrested at Clarksville on the 5th, brought back on the 16th, was put on his trial on the 27th, found guilty on the 28th, sentenced on the first of May, started to the Penitentiary on the 2d, reached there on the 4th, and was put to spinning hemp on the 5th.

CAMPAIGN THUNDER.—The Publishers of the New York *Tribune* offer to send copies of their Weekly paper, during the coming Presidential campaign (that is, from June 17th to Nov. 15th,) at the following low rates:—

1 copy for the term (22 weeks,)	$1 75
5 copies to one address,	4 50
11 " " "	5 00
23 " " "	10 00

Payment in all cases to accompany the order.

We need not commend the *Tribune* to our readers. It is known all over and beyond the Union, as one of the best and cheapest Newspapers in the world, and second to none in the real ability with which it maintains the Whig cause and candidates.

CIRCUIT COURT.—*The Murder case.*—We found ourselves unable to continue our report of this trial. We have, however, given all of the evidence on both sides except a little which was introduced by the prosecution yesterday morning. The District Attorney, Mr. BUTLER, commenced summing up at about 10 o'clock, and spoke two hours. He was followed by Messrs. SMITH and DORAN, counsel for McDonald, who occupied the balance of the day. Mr. MALLORY commences this morning, for the prisoner Connaughty, and Mr. ARNOLD will close for the State. The case will doubtless go to the jury this afternoon.

PRESENTIONS IN WISCONSIN.—On the 25th, in the House of Representatives, Mr. HALL, from the Committee to which was referred the Senate bill granting to certain settlers on the Menominee purchase, in Wisconsin, pre-emption rights, reported a substitute making pre-emption general on all the unsurveyed lands. No action was taken on the bill.

On the same day, a bill was reported from the same committee [on Public Lands] a bill giving the assent of Congress to Missouri to impose a tax on all lands hereafter sold in the said State, from and after the day of sale. The bill passed.

GEN. SCOTT IN NEW JERSEY.—The Newark (N. J.) Mercury says: "We are confident that the voice of New Jersey in the Whig State Convention will be expressed clearly and decidedly in favor of General Scott. The evidences are growing stronger day by day, that he alone can successfully lead the forces of his party, and the very consciousness of this will force his nomination upon the Baltimore Convention. Hundreds in our midst feel a preference for Webster or Fillmore, but the conscious certainty of defeat under such candidates impels them to the advocacy of Scott's nomination.

A ROGUE CAUGHT.—Sheriff SLOAN of Wayne county, N. Y., arrived in this city on Friday night, with a requisition from Gov. HUNT for the arrest of a man named James Ostrander, under two indictments for seduction. Having procured the necessary papers from Gov. FAIRWELL, Sheriff WITTE of this county, started in search of the fugitive, and after a chase of 86 miles, succeeded in "treeing" him, on Sunday morning, at Cedarburg, Washington county. He was given up to the Sheriff of Wayne co., who started home with his prisoner last evening.

☞ The "Fakir of Siva" had as usual, another crowded house, last evening. The dancing of Mrs Maguire and Madlselle Elizbeth was exquisitally executed—the Fakir's Feats need of course no commendation from us. To night he gives another entertainment; of course there will be a crowded house.

Go and look at the rich and valuable articles in Kirby's window, to be distributed on Thursday evening, at the Fakir of Siras' performance.

☞ The *News*, following the *Wisconsin*, seems vastly puzzled that we can say anything against the irregularity of the mails, and still support the Whig Administration. Doubtless, if a Loco Administration were in power, and such irregularities should occur, those papers would say never a word. Just like them!

USES OF THE TELEGRAPH.—The N. Y. *Times* relates the following:

A friend applied to a huckster-woman not long since for a brace of game of a particular description. "None to day, sir," was the reply, "day after to-morrow you may certainly have them for Sunday's dinner, fresh from Illinois. My agent telegraphed from Chicago they were on the way!" Great country this. Wonderful age.

WHIG DELEGATIONS.—In Massachusetts, DARIUS CHILD is the delegate from the 3d district, IRA BURTON from the 5th, and DANIEL FISH— the 10th. Their first choice Mr. W— from D. C. MACOON, a Scott m— —ESTER. Augusta, Maine, district —, represents the Au- The "Scott — appoint— Association" of New Orleans, has i— —d 28 delegates to attend the Whig National Convention, and aid in securing, if possible, the nomination of Gen. SCOTT.

☞ A LITTLE TOO FAST.—The *Wisconsin* of last evening announces that the repairs on the Dam are completed, the water in the canal and the machinery all at work again. We are assured by one of our Millers that this is a great mistake. The dam is not yet mended, nor the water in the canal, nor the mills at work.

☞ The Methodist General Conference has decided in favor of the pow system, and against that article of Methodist discipline which requires that "men and women should sit apart in all the churches," by a vote of 89 to 62; an evidence that a spirit of progress and common sense is gaining ground in the church.

AMERICAN EXPRESS COMPANY.—This company now carry freight by their *fast Freight Line*, between this city and N. Y., at $1,80 per 100 lbs,—a considerable reduction on previous rates. They now run *daily* South and East, as well as North to Sheboygan. Office in the U. S. Block, on Huron street.

For the Sentinel.

Messrs. Editors:—I am requested by Messrs. Mohr & Alfter to correct a slight mistake in my yesterday's sketch of the May Fest. That *they* were not out as saloon-keepers, but only their articles. A young man, formerly of their employment, having made the speculation to furnish the public with the well and justly renowned article of this old firm and being anxious to secure to himself the patronage of the numerous customers of Messrs. Mohr & Alfter, had used their firm on the sign of his establishment. Messrs. Mohr & Alfter will be glad to see their friends in their own store on Wisconsin st., and will be glad to furnish the public with their large stock of goods at any time, but they are satisfied with *their own* business, without establishing any other.

JUSTICE.

☞ The *News* wants to know how it happens that New Jersey has "become a democratic State"? Jersey has only been playing with your folks, neighbor. She always comes up right in a Presidential canvass. She is good for about 3,000 majority for SCOTT.

☞ An article which originally appeared in the *Morning News* a week ago was published in the *Sentinel* of Saturday, credited to Long John Wentworth of the Chicago *Democrat*—No 1.

Will you specify.

HUGE CLIPPER SHIP.—There is now on the stocks at Boston a clipper ship which will navigate 2,300 tons, and will be the largest merchantman in the world. Her builder means that she shall likewise be fastest.

GOV. WOOD.—The Cleveland *Herald* states that Gov. Wood of Ohio, has gone on to Baltimore and that a strong effort is to be made to get him on the democratic ticket as Vice President.

☞ Gov. HUNT, of N. Y. has refused to commute the sentence of Maurice Antonio, under sentence of death in N. Y. city. He is to be executed to-morrow.

☞ ROONEY has a large sale of Tobacco at his Auction rooms this morning, which consumers and dealers in the weed may find it worth their while to attend.

☞ A little stern wheel steamer has been sent from Cleveland up to Lake Superior, to run on the Ontonagon river.

WISCONSIN FLOUR.—A new feature in the trade of Northern Wisconsin took place at the last trip downward of the *Michigan*, in the shipment of a quantity of flour by Peck, Day & Co., manufactured by the Messrs Kimberly, of Neenah. Their brand has become a choice one in this market, and we prophecy that it will be equally popular at the east.

By the *Oshkosh Democrat* we see that the proprietor of the Muckford Mills, Mr. Carhart, is about going east to contract for the sale of flour.

Owing to some peculiarity either in the climate or soil of Northern Wisconsin, the flour manufactured is at least equal to any in the Union, if not superior. Our wheat grows to perfection, and we confidently look forward to the time,not far hence, when the flour from this section shall command a premium in the Eastern markets.—*Green Bay Advocate.*

LOST CHILD.—We are informed by Mr. I. I. Goodrich, that a child of Mr. Young, who resides some seven miles from Plymouth in this county, very suddenly disappeared a few days since, and at last advices had not been found. It seems that the child, about two years of age, started with its mother for a spring some 40 rods from the house and stopped on the way, and upon the return of the mother in four or five minutes, the child was no where to be found. The neighbors, some thirty or forty in number, turned out and made diligent search without success. Every few days we find in our exchanges, cases similar to this, and how to account for it, is indeed difficult.—*Sheboygan Mercury.*

BOARD OF WORKS.—The Board of Public Works met at Oshkosh on Thursday of last week, and were in session one or two days. The Governor was not present as anticipated.

Peter H. Prame was chosen as Acting Commissioner.

We understand that they have gone to the upper end of the line, in order to make arrangements for putting the Dredge into immediate and active use, and after completing the business there, will visit the lower Fox.

Warrants were issued to several contractors.—The claims of Reynolds and McNeal *were not paid.*—*Green Bay Advocate.*

Washington, May 22.

SENATE.—Mr. Hunter moved to postpone the consideration of private bills for the purpose of taking up the deficiency bill.

Mr. Badger said that he wanted an opportunity to report on his finally compromise speech.

Mr. Hunter said that if they established the finality of the deficiency bill he would move to hear him. Motion to take up the bill was carried.

Mr. Black presented Mr. Berrien's letter notifying the Senate of his resignation.

Mr. Butler, in moving to fill the vacancy in the Committee on Judiciary, caused by the resignation of Mr. Berrien, expressed his high regard and regret at his leaving.

The deficiency bill was then taken up.

House.—The House immediately went into consideration of the Missouri land bill.

Mr. Hale moved the previous question on its final passage. Movement seconded.

Gov. Marcy has written a reply to Capt. Scott of Virginia in favor of the compromise.

In the case of the French ministers with the Hon. John Barry, the latter gentleman has been bound over in the sum of $5,000 to keep the peace.

Norfolk, May 26.

The Court Martial assembled on board the U. S. ship Pennsylvania, are now engaged in trying Cumming upon the charge of drawing his sword on a superior officer.

Commodore Pettigrew is to be tried by the same Court on the charge of receiving $3,00 reward for arresting Withers, a deserter.

Boston, May 22.

Gov Boutwell and Neal Dow were hung in effigy on the common this morning.

Cairo, May 22.

The cholera has been prevailing here to a considerable extent during the past two weeks, but principally among the German emigrants recently landed from Steamer Moro Castle. Tenor 12 have died and much excitement prevailed among our citizens. The conduct of the officers of the Moro Cassle in lading them sick and against their inclinations, is highly condemned The ideas[e] has almost entirely subsided.

Emigration.—There is now a perfect flood of emigration into Wisconsin. Large numbers of Germans, Hollanders and Norwegians are daily landing at Milwaukee, Sheboygan and this port, mostly destined for the River and western counties. The *Harrison* and *Rossiter* each landed large numbers here each trip, who came by *Chicago*; and the *Morton* and *Michigan* from *Buffalo*, swell the number, and yet there is room for thousands more.—*Green Bay Spectator.*

COLLECTOR AT DEPERE.—The Board of Works have removed Mr. Edward White, Collector of Tolls at Depere, and appointed in his stead Mr. Richard F. Wilson, who has taken his place in that office.—*Green Bay Advocate.*

☞ The constant clatter of hammers, hatchets, saws, &c., in all directions, reminds us that new buildings are daily springing into existence, and a general complaint exists that mechanics are all engaged, and scarce by a man can be found to do a days work. No man asks a second time for employment.—*Sheboygan Mercury.*

☞ We saw a drove of fifty of the best cooking, largest and fattest cattle we have seen this season, passing up Main street yesterday afternoon. They came down on the St. Louis, and were from Milwaukee. *Buffalo "Rough Notes" 21st.*

COMMERCIAL.

THE MARKETS.

OFFICE OF THE DAILY SENTINEL, MILWAUKEE, June 1, 1852.

Business during the past week has been lively, and receipts from the country, especially of wheat and flour, increased. As yet, however, the receipts do not equal the stock sent forward by the lakes. The low prices which have ruled for most articles keep them back. Thus far, the principal exports foot up nearly as follows:

Flour, bbls.	18,000	Wool, bales,	70
Pork, bbls	11,000	Ashes, tons,	60
Barley, bu.	55,000	Furs, dry	20,000
Oats, bu.	6,000	Hides, no.	3,000
Wheat, bu.	22,000	Bricks, no	200 m.

RECEIPTS BY RAIL ROAD YESTERDAY.—74 bbls flour, 1154 bu wheat, 15 bu corn, 45 hogs, corn meal, 9 kegs butter, 4 bbls eggs, 2 bdls hides, 5 boxes, 1 lot furniture.

DURING THE WEEK.—622 bbls flour, 980 bu wheat, 115 bu corn, 200 bu barley, 300 bu other grain, 5000 lbs tobacco 5 bbls 18 kegs lard, 2 tons 6 bbls bbl corn meal, 2 tons flax, 50 hides, &c. &c.

FLOUR.—We have no change to note from last week's prices, and transactions are light. We notice a Sale of 100 bbls No. 1, retail, at $3 00, inspection guaranteed. Extra family sells for local use at $4@4 12½, choice 1 rands retailing at $4,50.

WHEAT.—Sales at 80@82 for spring—85@85, for winter In reluctance to the prospect abroad, the price of flour, and the probable influx of the scarcity on the continent, the London Mercantile *Gazette* of the 7th of May holds the following language:

The supplies of wheat have more than kept pace with the consumptive demand, and its value has tended downwards. Spring corn the high brought forward sparingly, has at one period met with decent attention to lead to any improvement of consequence in price, and the trade altogether has remained in a dull state. The long expected supply of flour from America has come to hand,about 85,000 barrels having arrived at Liverpool, and 50,000 barrels into London, within the space of a fortnight. This importation will not be a profitable one to the parties concerned, *most of the Four barrel cost nearly as much on the other side if the Atlantic as it will realize here, freight and charges have therefore, been lost.* The quantity now on passage from the United States is not, we believe, large, but we may expect further shipments to be made from thence during the present month, in fulfillment of contracts entered into during the winter. The latest advices from the Baltic are to the effect that the crops of wheat had in general resisted any decline of importance, and that comparatively little business had consequently been done for export. The scarcity of food in the interior of Germany is said to be so great that people are actually dying from famine in some parts, the high prices to which rye, potatoes, &c., had risen, having put it out of the power of the poor to obtain the necessaries of life

We are nevertheless still of the opinion that supplies of wheat to some extent will reach us later in the year from the North of Europe; for though there can be no doubt the crop will be a short one, it is not probable that it will be so very deficient as the consumption, and there will be some quantity for export, which will ultimately be directed to the English markets"

BARLEY dull, little demand and light receipts—sales 29a 32c.

PORK.—Held at $16,50 for No. 1 mess

WOOL.—We have noticed several lots of the new clip in market which were readily taken by dealers at 25c for fair lots of ¼ to ½ blood. We think the usual competition in our market will keep prices fully up to what buyers will be warranted in paying No eastern buyers are in market, and the only orders or offers for future delivery are 25c for 50,000 lb of the average of Wisconsin wool, to be delivered in Boston, transportation to be paid by sellers The clip of Wool this year, it is thought, will largely exceed that of last year, the high prices then paid having caused a less number of sheep to be slaughtered—The Ohio clip is now estimated at 12,000,000 to 14,000,000 lbs. By the last advices from England, we learn that wool has slightly declined there Since the difficulties have been settled in Buenos Ayres prices there have declined 33½ per cent This circumstance will have a tendency to increase the importation of South American wool this year over that of 1851.

The New York *Journal of Commerce*, in a review of the market for the week ending the 22d inst., says: "The market is exceedingly dull, and will not very considerable concessions even from present rates, manufacturers will not purchase. The stock of domestic is light, and the sales during the week have been confined to small parcels, amounting in the aggregate to about 20,000 lbs. fleeces, and 10,000 the pulled"

The New York *Tribune* of the 24th inst. says: "Wool is very quiet; 100 bales Smyrna sold at 31½ for fair unwashed, and 14@15c, 6 months; 50,000 lbs domestic fleece sold at 19@23c; 10,000 do pulled at 25@26, No 1; 22@23c for superfine, and 32 a 33c for Extra."

WOOL.—The Cincinnati *Commercial* says: "We are now upon the eve of the season of the new clip of wool, and the prices at which dealers in this market are now prepared to purchase, compare as follows with last year's currency:

	1852.	1851.
Com mon,	27c	32c
¼ blood,	28@29	33@36
½ do	31@32	37@40
¾ do	33@35	42@45
4-4 do	37@38	48@50
Merino fleece,	33@—	42@45

Very, Mayer, with the large stock of wool yet on hand in this market, and the large estate of other manufacturers who have little to sell, demand and more doing. Sales of the week, 200 lbs, about the same prices as our last report, and which is full three cents below the price obtained in January last. None of the new clip yet offered. Stock on hand about 200,000lbs, consisting of grades and kinds of American—*Herald*

We have given all of the facts which we have at hand, to enable our wool growers to guide themselves as to their clip. The reduction of price since last year is large, and the probability is that it will remain. We do not doubt that the wool marketed from this state will be greatly in the increase over last year, when it reached 220,000lbs from the port alone.

Sugars have taken a call rise, and we quote now at the following rates:—Loaf, 9½@9¾c; Crushed 9@9½c; Powdered 9¼@9½; Clarified 7@7½; New Orleans 5@5¾; Muscovado 6½@6¾.

Molasses—32@34c.

Coffee—Rio 10½@11—Java 13@14—Laguayra 10½@11.

Whiskey—19@20c.

Pork—Held at $13,50 for prime, $15,50 for mess, fine 1 eld at $21,50, coarse 17,5 per bbl. We notice a sale of 3000 sacks at Newport quoted at 5½ sacks at 16c.

Corn—Spanish 1,30@1,75—Whale 90@95—Lard 9@11,00—Linseed 75.

Leather has taken another start, and we quote now at 17c for heavy hemlock Spanish, 18c for light, 19c for slaughter Hides in brisk demand, and ready sale at 8c for dry, 3½ for green

☞ A letter from Indiana says that wheat looks extremely good, and a fair promise of being an abundant crop. This fact of Indiana is more noted for corn and pork than it is for wheat. Dealers in hogs are now paying $2 75 hundred for stock hogs to drive to Ohio and Kentucky.

☞ "TAKE THE BROOM!"—The new steamer "Southern Michigan," which has just commenced running in the Southern Railroad Line, between Toledo and Dunkirk, "takes the broom" for good, against all competitors.—The Buffalo Commercial Advertiser says she made more than twenty-two miles an hour between Buffalo and Dunkirk, last Saturday

PATENT MEDICINES.

Another Scientific Wonder!

DR. J. S. HOUGHTON'S

GREAT DYSPEPSIA CURER!

PEPSIN

THE TRUE

DIGESTIVE FLUID,

OR

GASTRIC JUICE

PREPARED from Rennet, or the fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, M. D., Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, Curing after Nature's own method, by Nature's own Agent, the Gastric Juice.

Half a teaspoonful of Pepsin, infused in water will digest or dissolve, Five Pounds of Roast Beef in about two hours, out of the stomach.

Pepsin is the chief element, or Great Digestive Principle of the Gastric Juice—the Solvent of the Food, the Purifying, Preserving and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an Artificial Digestive Fluid, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation the jaws and gums of the aged can and Dyspepsia are removed, just as they would be by a healthy stomach. It is doing wonders for Dyspepsia, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, which have been given up to the verge of the grave. The Scientific Evidence upon which it is based, is in the highest degree Curious and Remarkable.

THE SCIENTIFIC EVIDENCE.

Baron Liebig in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and fat, are digested, just in the same manner as they would be in the human stomach."

Dr. Pereira, in his famous treatise on "Food and Diet," published by Fowler & Wells, New York; page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira.

Dr. Combe, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and frequent exciting cause of Dyspepsia;" and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had resource to the Gastric Juice, obtained from the stomachs of living animals, which proved completely successful.

Dr. Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of digesting the various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process."

Professor Dunglison, of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject—His views are supported by Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals, are well known. In all cases, he says, "digestion occurred as perfectly in the artificial as in the natural digestions."

Dr. John W. Draper, Professor of Chemistry, in the Medical College of the University of New York, in his "Text Book of Chemistry," page 269, says, "It has been a question whether artificial digestion could be performed—but it is now universally admitted that it may be."

Dr. Carpenter's standard work on Physiology, which is in the library of every Physician, and is used as a Text-Book in all the Colleges, is full of evidence similar to the above, in respect to the remarkable Digestive power of Pepsin, and the fact that it may be readily separated from the stomach of the calf or ox, and used for experiments in Artificial Digestion, or as a remedy for disease of the Stomach, and deficient secretion of Gastric Juice.

All modern works on Chemistry, Materia Medica, and Physiology, and all good Medical Dictionaries, describe the character and properties of Pepsin, and state many interesting details respecting it.

The fact that an Artificial Digestive Fluid, or Gastric Juice, perfectly resembling the natural fluid, may be readily prepared, does not admit of question. The only wonder is, that it has not before been applied to the cure of indigestion and Dyspepsia—so naturally does such a cure suggest itself to the mind.

AS A DYSPEPSIA CURER,

Dr. Houghton's PEPSIN has produced the most marvelous effects, in curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption. It is impossible to describe the details of this wonderful Establishment; but authenticated certificates have been given of more than Two Hundred Remarkable Cures, in Philadelphia, New York, and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful but permanent.

It is a great Nervous Antidote, and particularly useful for tendency to Bilious disorder, Liver complaint, Fever and Ague, or badly treated Fever and Ague, and the evil effects of Quinine, Mercury, and other drugs upon the Digestive Organs, and Liver of Bowels. A few doses in such cases, and the too free use of ardent spirits. It almost reconciles Health with Intemperance.

OLD STOMACH COMPLAINTS.

There is no form of Old Stomach Complaints which it does not seem to reach and remove, let the cause be how bad they may be, it gives Instant Relief! A single dose removes all the unpleasant symptoms; and it only needs to be continued for a short time to make the good effects permanent. Purity of Blood and Vigor of Body follow at once. It is particularly excellent in case of Nausea, Vomiting, Cramps, Sourness of the pit of the stomach, distress after eating, cold state of the blood, Heartburn, Lowness of Spirits, Despondency, Emaciation, Weakness, tendency to Insanity, Suicide, &c.

Dr. Houghton's Pepsin

is for sale by nearly all the dealers in fine drugs and Popular Medicines, throughout the United States. It is prepared in Powder and in Fluid form—and in Prescription vials for the use of Physicians.

Private Circulars for the use Physicians, may be obtained of Dr. Houghton or his Agents, describing the whole process of preparation, and

THE WORLD'S FAIR
PREMIUM SAFES.
DEPOT,
Green Block, Water St.,
(Between Maiden Lane and Wall Street,)
NEW YORK.

THE SUBSCRIBER PLACED HIS FIRE AND BURglar-Proof Iron Safe in competition with the whole world in the great Exhibition in London, for which an impartial jury awarded a medal.

The American Fair, held last fall at Castle Garden, also awarded to him a gold medal for the best Fire-Proof Safe, and he has since failed to obtain the highest premium when his Safe has been put in competition with others for that purpose. Certificates have been received from the following well-known merchants, who have had their books, papers and money preserved in these superior safes within the last thirty days, (and can, with many others, be seen at my store,) viz: Messrs. Bissell & Monroe, and Mr. J. L. Watkins, in the Fulton Street fire; Messrs. Fisher & Robinson, and Messrs. John Lockwood & Co., in the great fire on Broadway, Maiden Lane and Nassau Streets, and Messrs. Proul & Bowman, in Jersey City.

I am the proprietor of HALL'S PATENT LOCK, which obtained a medal (in the name of Adams & Co., Boston,) at the World's Exhibition, and is considered the best Lock for the price, ever invented, being proof against powder, and the Key is no larger than a cent, and can be made a charm or ornament.

I invite all purchasers to a close and careful investigation before purchasing, and decide for themselves, who makes the best Fire, Burglar and Damp-Proof Safes combined.

SALAMANDER SAFES.
WILDER'S PATENT AND RICHES PATENT COMBINED.
$100,000 SAVED.

FIRE in Pearl Street and Fletcher Street, New York.—Three Stores and their contents destroyed. Deeds before wards!
RICHES SAFES AGAIN!
EIGHT Safes of different makers consumed, with their contents! The Safe made by Rich & Co. defied the flames and brought out its contents without a mark of fire upon them!
MR. GILBERT'S LETTER.
THE FIRE IN FLETCHER AND PEARL-STS., NEW YORK.
New York, Dec. 20, 1851.

MESSRS. STEARNS and MARVIN, successors to C. Rich & Co., No. 145, Water street, New York—since which the fire was consuming my place of Business, No. 246, Pearl street, I was absent in Rensselaer County, testing a new cleaning apparatus for my Factory in my Native Thrasher, and did not read the account until I was fearful it was too late to save my books which were placed in one of your safes, purchased from Mr. Rich some years ago. My fears were not allayed when I found it necessary upon my return to apply the Croton Water 40 hours before I was enabled to commence operations; after which it required 54 hours of labor and application to raise the Salamander from its ashy bed. You may judge of my anxiety during this delay, and my agreeable surprise upon opening the safe in the presence of a number of gentlemen, to find my books and papers saved, and as legible as they were previous to the fire. The intense heat to which the Safe was subjected, can be recollected from the condition of another safe, (not a Salamander,) of which an iron skeleton frame only remained, and not a vestige of a book. They were companions in the same office, on the second floor, from which they fell upon crates of earthen ware in the cellar, the united safe upon the Salamander. If their position had been reversed, not even the skeleton would have remained. My loss over the insurance is $1,000, yet the salvation of my books in your Salamander, with the representations of $100,000, and important documents which could not be duplicated, has fully compensated me.

It will afford me great pleasure to exhibit the new safe purchased of you, and explain its merits, at my present office, No. 251 Pearl street, where I shall remain until the new building, No. 246, is erected.

Yours respectfully, JOSEPH G. GILBERT.

MISCELLANEOUS.

IMPORTANT TO THE PUBLIC!
THE following advertisement was published in May, 1849, in the "Boston Daily Times," and various other newspapers in the United States, by James G. Wilson, Esq., the owner of the "Woodworth Patent," shortly after I had advertised my "PATENT STATIONARY CUTTER, PLANING, TONGUEING, AND GROOVING MACHINE," throughout the United States:

"PLANING MACHINES.

"I take this method of answering the frequent inquiries, by letter and otherwise, as to my opinion upon the various notices through the papers, of the Stationary Knife Planing Machine attempted to be palmed off upon several persons I sent out of their town worth. I would state for the information of the enquirers that they will find substantially the machine now offered by several pretending inventors, described in the 20th volume of the Repertory of Arts, invented by samuel Benthan, in the year 1791. A like machine was patented in this country by one Kugler, some six teen years since, and another one put up by Albert Richards, of West Troy, N. Y., and abandoned about the same time. It ought to satisfy the public to know that after the eight years experimenting upon these machines, not one in use is of any value for the purposes contemplated.

I will furnish a Stationary Knife Machine equal to any now in use, or to any offered by the pretending inventors, at the cost of the machine and five per cent for my trouble.
JAMES G. WILSON,
May 19, 1849. Philadelphia."

I deny that any person ever saw or heard of such a machine as mine until I invented the same. Said machine was operated in this month of August, 1848, and no machine before this could do so much work, and do it as well as mine. In reply to the above advertisement, and in order that the public may be informed that I mean what I say, I will offer to pledge ONE THOUSAND DOLLARS against an equal amount from said Wilson, that ONE of my machines will plane, or plane, tongue and groove with less power, as much lumber in the same time, and do it as well, or better than TWO of the "Woodworth" machines. The trial to be made at my Steam Mill, Border st., East Boston, Mass., or at such other place as may be convenient for such a trial.
JOSEPH P. WOODBURY,
August 20, 1851.-dly East Boston, Mass.

where he has on hand a very heavy stock of GROCERIES, and would invite those wishing to purchase goods in his line to give his stock an inspection before purchasing.

It has not only been the aim of the subscriber to sell as low as any other similar establishment in the West, but to convince purchasers that he can and will sell as low as dealers of Groceries in New York—and why not? The subscriber has been engaged in the Wholesale Grocery Business in New York for six years prior to coming to this market—his experience and facilities enable him to buy from the same parties the jobbers of New York buy from. He will hold himself in readiness to receive all merchant's purchases in New York—adding necessary expenses.

HAWKINS'
STAVE DRESSING MACHINE.
PATENTED JULY 22, 1851.

THIS machine is now in successful operation at the shop of Wm. Hawkins in this city, and will dress staves for

Packing, Flour and Whiskey BARRELS,

and PIPES or HOGSHEADS, at the rate of
600 Whiskey or 800 Flour Barrel Staves
PER HOUR,
straight, winding or crooked. In fact, any stave that can be worked by hand will be dressed by this machine, either for Pipe or shook work, from 22 inches to 72 inches in length of any reasonable width, and *to any requisite bilge*, and in the most perfect manner. The stave passes through the machine in a straight line, is dressed by rotary cutters, and is then ready for the truss hoop. The dressing of the sides and jointing of the edge of the stave is performed perfectly. The machine is made of iron, is strong and durable, and is not difficult to keep in good order for use. Six horse power is sufficient to drive the machine with all the speed necessary.

The Subscribers having purchased of Wm. Hawkins the patent right for the United States are prepared to sell rights for States, Counties, or for running single machines and to furnish and set up the machines, warranted to perform perfectly. The price of a right, including all the machinery of dressed over the rough stave, the rapidity and perfect manner with which it performs its work, consists the value of this invention.

Satisfactory testimonials can be furnished if desired.

THE Proprietor, DR. R. WESSELHOEFT, begs leave to inform the public, that he has removed from his several residences, and is able again to attend to his professional duties. Experienced nurses, therefore, may depend upon his giving the due attention to their cases. They will also find comfortable and pleasant accommodations both for themselves and friends, but will please to remember that the establishment is intended for the *cure of diseases by means of water*, and not for a hotel at a fashionable watering place. Yet, to the lovers of nature and a quiet summer resident, the Institution has many attractions besides its Water-cures, for which Nature has lavished her gifts on the town, and the walks and drives in the vicinity.

G. GRÆSSLE'S
PRESSED, FIRE-PROOF TILING.
CERTIFICATES OF RECOMMENDATION.
BY the present, I attest my entire satisfaction with the roof of my House, covered with the pressed, fire-proof Tile, invented by Mr. Græssle; having found them perfectly secure during violent storms, and also in the severest cold. I hereby take occasion to recommend said roof covering to every house-builder, inviting them to satisfy themselves by personal inspection of the excellent quality of the same. ENNO MEYER.
Druggist, 271 W. Water-st., 2nd ward.
Milwaukee, Feb. 3, 1852.

The above I found true in every respect, as to the roof of my house, covered with the same tile, invented by Mr. Græssle. L. SCHNEIDER.
Brewer, Cit.-hut-st., 2nd ward.

The undersigned, having carefully examined the presed roofing Tile, invented by Mr. Græssle, have found them perfectly answering the purpose intended. Their practical and ingenious construction recommend this kind of Tile, not only as a fire proof and perfectly water-proof covering, but above all for its durability. The ridges and chamfers not only exclude the entering of snow or rain-water, but, for it's firm and solid connection of each tile with the other, they give to the single Tile as well as to the whole covering an absolutely immovable position and an intimate connection. Besides this, Mr. Græssle's method of burning the Tiles gives them of the ingredients necessary to absorb water, making them in this way durable: and joining to the above another virtue, viz: that of dispensing with repairs. The undersigned therefore consider ourselves fully just fied in recommending to the building community the above roofing Tile as an excellent and valuable material.

To G. Græssle.—I have examined the Roofing Tile made by you, and have no hesitation in recommending them to general use, and particularly as a fire-proof roof.
